**LIST OF FIGURES**

**SECTION I**
- Figure 1  ATM DSLAM Scorecard
- Figure 2  IP DSLAM Scorecard
- Figure 3  Ethernet DSLAM Scorecard
- Figure 4  Access Integration Metro B-RAS Scorecard
- Figure 5  Ethernet Access Metro B-RAS Scorecard
- Figure 6  Advanced Services Metro B-RAS Scorecard
- Figure 7  Security Services Metro B-RAS Scorecard
- Figure 8  TR-59 Compliant B-RAS Scorecard
- Figure 9  CO Scale B-RAS Scorecard
- Figure 10 CO Scale per Cubic Foot B-RAS Scorecard

**SECTION II**
- Figure 11 A DSLAM Taxonomy
- Figure 12 Alternative DSLAM Taxonomy
- Figure 13 General DSLAM Features
- Figure 14 Power per Line for Different Line Length Distributions
- Figure 15 Traditional ATM DSLAM Features
- Figure 16 IP DSLAM Features
- Figure 17 Ethernet DSLAM Feature
- Figure 18 DSLAM Scores
- Figure 19 General DSLAM Subtotals
- Figure 20 General DSLAM Derived Metric Figures
- Figure 21 ATM DSLAM
- Figure 22 ATM Subtotal
- Figure 23 IP DSLAM
- Figure 24 IP Subtotal
- Figure 25 Ethernet DSLAM
- Figure 26 Ethernet Subtotal
- Figure 27 DSLAM Top Products

**SECTION III**
- Figure 28 Subscriber Management
- Figure 29 Equipment Features
- Figure 30 Session Termination Features
- Figure 31 VPN & Tunnel Support Features
- Figure 32 Edge Router Features
- Figure 33 ATM Features
- Figure 34 Service Switching Features
- Figure 35 Metro B-RAS Scores
- Figure 36 Access Integration Metro B-RAS
- Figure 37 Interface Density
- Figure 38 Session Density
- Figure 39 VPN & Tunnels
- Figure 40 Ethernet Access Metro B-RAS
- Figure 41 Advanced Services Metro B-RAS
- Figure 42 ATM
- Figure 43 IP QOS
- Figure 44 Security Services Metro B-RAS
- Figure 45 Metro B-RAS Top Products
SECTION IV
Figure 46 TR-59 B-RAS Requirements – 1: Subscriber Sessions
Figure 47 TR-59 B-RAS Requirements – 2: ATM, Policy
Figure 48 TR-59 B-RAS Requirements – 3: DiffServ
Figure 49 TR-59 B-RAS Requirements – 4: Miscellaneous
Figure 50 DSL Forum Working Text 92 Revision 1 B-RAS Requirements
Figure 51 Equipment Features
Figure 52 ATM Features
Figure 53 DiffServ and Other QOS Features
Figure 54 Policy Configuration and Traffic Engineering Features
Figure 55 Queuing and Scheduling Features
Figure 56 Subscriber Sessions Features
Figure 57 Scaling: ATM and VLANs
Figure 58 Scaling: Other Parameters
Figure 59 CO B-RAS Scores
Figure 60 TR-59 B-RAS
Figure 61 ATM and LAN Interfaces
Figure 62 DiffServ and Other QOS
Figure 63 Policy Configuration and Traffic Engineering
Figure 64 Queuing and Scheduling
Figure 65 Subscriber Sessions
Figure 66 CO B-RAS Scaling
Figure 67 ATM and VLANs Scaling
Figure 68 Other Parameters Scaling
Figure 69 CO B-RAS Scaling per Cubic Foot
Figure 70 Central Office B-RAS Top Products

SECTION V
Figure 71 3G DLC Taxonomy
Figure 72 Broadband Loop Carrier Drivers

SECTION VI
Figure 73 Graphical Service Creation Tool
Figure 74 Service Activation Example: Part 1
Figure 75 Service Activation Example: Part 2
Figure 76 Service Management: Key Subscriber Functions

SECTION VII
Figure 77 DSLAM Survey Results
Figure 78 DSLAM Vendors by Recognition
Figure 79 DSLAM Vendors by Price
Figure 80 DSLAM Vendors by Performance
Figure 81 DSLAM Vendors by Quality & Reliability
Figure 82 DSLAM Vendors by Service & Support
Figure 83 B-RAS Survey Results
Figure 84 B-RAS Vendors by Recognition
Figure 85 B-RAS Vendors by Price
Figure 86 B-RAS Vendors by Performance
Figure 87 B-RAS Vendors by Quality & Reliability
Figure 88 B-RAS Vendors by Service & Support
Figure 89 B-RAS Market Recognition by Region
Figure 90 Incumbent Perceptions: Cisco vs. Juniper
Figure 91 3G DLC Survey Results
Figure 92 3G DLC Vendors by Recognition
Figure 93  3G DLC Vendors by Price
Figure 94  3G DLC Vendors by Performance
Figure 95  3G DLC Vendors by Quality & Reliability
Figure 96  3G DLC Vendors by Service & Support
Figure 97  3G DLC Results From Incumbent Carriers

SECTION VIII
Figure 98  Network Flexibility Points
Figure 99  Today’s IP Service Networks
Figure 100  Next-Generation Networks
Figure 101  TR-58 Market Drivers
Figure 102  TR-58 Service Feature Requirement Areas
Figure 103  DSL Forum TR-59 Highlights
Figure 104  DSL Forum TR-59 Reference Architecture
Figure 105  DLC Architecture

SECTION IX
Figure 106  DSL Frequency Utilization (ITU-T Rec. G.992.1)
Figure 107  Typical DSL Installation
Figure 108  Asymmetric DSL Standards
Figure 109  DSL Downstream Rate vs Reach
Figure 110  DSL Upstream Rate vs Reach
Figure 111  ADSL2 Reach or Rate Increase
Figure 112  ADSL2+ Bandwidth
Figure 113  ADSL2+ Doubles the Maximum Downstream Data Rate
