LIST OF FIGURES*

SECTION I

SECTION II

Figure 2.1 Ethernet Service Market Drivers.................................................9
Figure 2.2 Heavy Reading's 2004 Global Ethernet & Links Surveys – Carrier Highlights........10
Figure 2.3 Heavy Reading's 2004 Global Ethernet & Links Surveys – Enterprise Highlights ..11

SECTION III

Figure 3.1 Ethernet Services Model.............................................................14
Figure 3.2 Creating an Ethernet Service.......................................................15
Figure 3.3 E-Line and E-LAN Service Types................................................15
Figure 3.4 Key Ethernet Service Features...................................................16
Figure 3.5 Availability Examples.................................................................17
Figure 3.6 Network Technologies & Typical Restoration Times....................18
Figure 3.7 Creating Ethernet Connectivity Services.....................................19
Figure 3.8 Platform Evolution Toward Carrier-Class Ethernet....................20
Figure 3.9 Data-Friendly Technologies Reshaping Sonet/SDH .......................21

SECTION IV

Figure 4.1 Ethernet Services Framework...................................................23
Figure 4.2 Major Ethernet Connectivity Services........................................24
Figure 4.3 Ethernet Private Line Highlights...............................................25
Figure 4.4 Ethernet Virtual Private Line Highlights....................................26
Figure 4.5 Ethernet Private LAN Highlights...............................................27
Figure 4.6 Ethernet Virtual Private LAN Highlights....................................29

SECTION V

Figure 5.1 Mix of Major Ethernet Services Currently Offered.......................31
Figure 5.2 Ethernet Services by Type..........................................................31
Figure 5.3 Ethernet Connectivity Services by General Type.........................32
Figure 5.4 Ethernet Connectivity Services by Specific Type.........................32
Figure 5.5 Connectivity Services by Geographic Scope............................32
Figure 5.6 Ethernet Private Line Price Examples (in US$)............................33
Figure 5.7 Price Ranges for EPL Service per Mbit/s (in US$).......................34
Figure 5.8 Ethernet Virtual Private LAN Price Examples (in US$)..................34
Figure 5.9 Price Ranges for EVPLAN Service per Mbit/s (in US$)..............35
Figure 5.10 Carrier Ethernet Service Offerings in North America...............36

SECTION VI

Figure 6.1 Ethernet Service Offerings From Profiled Carriers.......................40
Figure 6.2 Equipment and Technologies Used by Profiled Carriers...............41
Figure 6.3 AboveNet Ethernet Service Portfolio..........................................42
Figure 6.4 AboveNet Ethernet Services at a Glance.....................................42
Figure 6.5 AT&T Ethernet Service Portfolio...............................................43
Figure 6.6 AT&T Ethernet Services at a Glance..........................................44

* All charts and figures in this report are original to Heavy Reading, unless otherwise noted.
SECTION VI (Continued)

Figure 6.7  BellSouth Ethernet Service Portfolio ................................................................. 46
Figure 6.8  BellSouth Ethernet Services at a Glance ........................................................... 46
Figure 6.9  Level 3 Ethernet Service Portfolio ................................................................. 49
Figure 6.10  Level 3 Ethernet Services at a Glance ......................................................... 49
Figure 6.11  Masergy Ethernet Service Portfolio ............................................................. 51
Figure 6.12  Masergy Ethernet Services at a Glance ....................................................... 51
Figure 6.13  MCI Ethernet Service Portfolio ................................................................. 52
Figure 6.14  MCI Ethernet Services at a Glance ............................................................... 52
Figure 6.15  OnFiber Ethernet Service Portfolio ............................................................ 54
Figure 6.16  OnFiber Ethernet Services at a Glance ....................................................... 54
Figure 6.17  Qwest Ethernet Service Portfolio ................................................................. 55
Figure 6.18  Qwest Ethernet Services at a Glance ............................................................ 55
Figure 6.19  SBC Ethernet Service Portfolio ................................................................. 58
Figure 6.20  SBC Ethernet Services at a Glance ............................................................... 58
Figure 6.21  Time Warner Telecom Ethernet Service Portfolio ................................. 61
Figure 6.22  Time Warner Telecom Ethernet Services at a Glance ................................. 61
Figure 6.23  Verizon Ethernet Service Portfolio ............................................................... 65
Figure 6.24  Verizon Ethernet Services at a Glance ........................................................... 65
Figure 6.25  XO Communications Ethernet Service Portfolio ................................. 68
Figure 6.26  XO Communications Ethernet Services at a Glance ................................. 68
Figure 6.27  Yipes Ethernet Service Portfolio ................................................................. 70
Figure 6.28  Yipes Ethernet Services at a Glance ............................................................. 71
