LIST OF FIGURES*

SECTION I

Figure 2.1 Respondents by Geographic Location ...................................................... 6
Figure 2.2 Respondents by Annual Household Income ............................................. 7
Figure 2.3 Respondents by Age ................................................................................. 7
Figure 2.4 Respondents by Monthly Spending on All Communications Services ..... 7

SECTION II

Figure 3.1 Type of Internet Services Used (All Respondents)................................. 8
Figure 3.2 Current Average Monthly Spending on Internet Services
(All Respondents).................................................................................................... 8
Figure 3.3 Projected 2005 Spending on Internet Services (All Respondents)......... 9
Figure 3.4 Projected 2005 Spending on Internet Services (DSL Subscribers)......... 9
Figure 3.5 Projected 2005 Spending on Internet Services (Cable Modem
Subscribers) ........................................................................................................ 9
Figure 3.6 Perception of Internet Service Cost (By Type of Service Used).............. 10
Figure 3.7 Most Important Factor in Selecting Internet Services (By Type of Service
Used).................................................................................................................. 10
Figure 3.8 Internet Service Churn Potential (By Type of Service Used)................. 11

SECTION III

Figure 4.1 Type of Video Services Used (All Respondents)..................................... 12
Figure 4.2 Advanced Video Services Used (All Respondents)................................. 12
Figure 4.3 Advanced Video Services Used (Respondents Who Spend >$50/Month
on Video Service)............................................................................................... 13
Figure 4.4 Projected 2005 Spending on Video Services (All Respondents)............ 13
Figure 4.5 Perception of Video Service Cost (By Type of Service Used)................. 14
Figure 4.6 Factors That Can Influence Change in Video Service Provider (All
Respondents)........................................................................................................ 14
Figure 4.7 Video Service Churn Potential (By Type of Service Used)...................... 15

SECTION IV

Figure 5.1 Current Use of Cellular/Wireless Services (All Respondents)................. 16
Figure 5.2 Current Average Monthly Spending on Wireless Services (All Wireless
Users).................................................................................................................... 16
Figure 5.3 Projected 2005 Spending on Wireless Services (All Wireless Users)..... 17
Figure 5.4 Perception of Wireless Service Cost (All Wireless Users)....................... 17
Figure 5.5 Factors That Can Influence Change in Wireless Service Provider (All
Wireless Users).................................................................................................... 18
Figure 5.6 Wireless Service Churn Potential (All Wireless Users) ......................... 18
Figure 5.7 Preference to Replace Wireline Service with Wireless Service (All
Wireless Users).................................................................................................... 19
