LIST OF FIGURES*

SECTION I

SECTION II

Figure 2.1 Macro-Level Ethernet Service Drivers .......................................................... 11
Figure 2.2 High-Performance Ethernet Drivers ............................................................. 13
Figure 2.3 Enterprise Survey on the Importance of Ethernet Service Features ........... 15

SECTION III

Figure 3.1 Ethernet Services Framework ...................................................................... 17
Figure 3.2 Ethernet Connectivity Services Definition Highlights ............................... 18
Figure 3.3 E-Line Services ......................................................................................... 18
Figure 3.4 E-LAN Services ....................................................................................... 18
Figure 3.5 Intercity Ethernet Virtual Private LAN Service ........................................... 19

SECTION IV

Figure 4.1 North American Ethernet Service Market Snapshot ................................ 22
Figure 4.2 Mix of Major Ethernet Services Currently Offered ..................................... 23
Figure 4.3 Specific Major Ethernet Services Currently Offered .................................. 23
Figure 4.4 Ethernet Connectivity Services by General Type ..................................... 24
Figure 4.5 Ethernet Connectivity Services by Specific Type ..................................... 24
Figure 4.6 Specific Ethernet Connectivity Services Currently Offered ..................... 25
Figure 4.7 Connectivity Services by Geographic Scope ........................................... 25
Figure 4.8 Intra- & Inter-Metro Connectivity Services Currently Offered .................. 26
Figure 4.9 Carrier Ethernet Service Offerings in North America ............................... 27

SECTION V

Figure 5.1 Ethernet Service Offerings From Profiled Carriers .................................... 32
Figure 5.2 Intra- & Inter-Metro Connectivity Services Currently Offered .................. 33
Figure 5.3 Equipment/Technologies Used by Profiled Carriers ................................. 34
Figure 5.4 Equipment/Technologies Used by Profiled Carriers – MAN vs. WAN ...... 34
Figure 5.5 Equipment & Technologies Supporting Carrier Services .......................... 35
Figure 5.6 AboveNet Ethernet Service Portfolio ...................................................... 36
Figure 5.7 AboveNet Ethernet Services at a Glance .................................................. 37
Figure 5.8 AT&T Ethernet Service Portfolio ............................................................. 39
Figure 5.9 AT&T Ethernet Services at a Glance ....................................................... 39
Figure 5.10 BellSouth Ethernet Service Tariff Prices – April 2004 vs. March 2005 ....... 41
Figure 5.11 BellSouth Ethernet Service Portfolio ..................................................... 43
Figure 5.12 BellSouth Ethernet Services at a Glance ................................................ 43
Figure 5.13 Broadwing Ethernet Service Portfolio .................................................... 46
Figure 5.14 Broadwing Ethernet Services at a Glance .............................................. 46
Figure 5.15 Cablevision/Lightpath Ethernet Service Portfolio ................................... 49
Figure 5.16 Cablevision/Lightpath Ethernet Services at a Glance ............................... 50
Figure 5.17 Cogent Ethernet Service Portfolio .......................................................... 52
