LIST OF FIGURES*

SECTION I

Figure 2.1 Respondents by Service Provider Type .................................................... 7
Figure 2.2 Geographic Regions Where Respondents' Employers Operate ............... 7
Figure 2.3 Respondents by Job Function ................................................................... 8
Figure 2.4 Annual Corporate Revenues of Respondents' Employers ...................... 8

SECTION II

Figure 3.1 Heavy Reading’s Ethernet Services Framework ....................................... 9
Figure 3.2 Ethernet Connectivity Services Definition Highlights............................... 10
Figure 3.3 E-Line Services ....................................................................................... 10
Figure 3.4 E-LAN Services ....................................................................................... 11
Figure 3.5 Intercity EVPLAN Service........................................................................ 11

SECTION III

Figure 4.1 Ethernet Connectivity Services – Current & Planned Offerings .............. 13
Figure 4.2 Ethernet Connectivity Services Demand.................................................. 14
Figure 4.3 Expected Data Services Growth Rates in 2006 ...................................... 15
Figure 4.4 Ethernet Connectivity Services Price Pressure ....................................... 15
Figure 4.5 Ethernet-Based Applications – Current & Planned Offerings............... 16
Figure 4.6 Ethernet-Based Applications Demand..................................................... 16
Figure 4.7 Perceived Competitive Advantages of Ethernet Service Features.......... 17
Figure 4.8 Residential Triple Play, IPTV, & VOD Service Plans............................... 18
Figure 4.9 Challenges in Offering Residential Triple Play, IPTV, & VOD Services .. 18

SECTION IV

Figure 5.1 Factors Influencing Carrier Ethernet Equipment Purchasing Decisions.. 19
Figure 5.2 Importance of MEF Carrier Ethernet Certification ................................. 20
Figure 5.3 Perceived Carrier Ethernet Equipment Market Leaders – Top Ten ....... 20
Figure 5.4 Factors Influencing the Extension of Ethernet to More Locations ......... 21
Figure 5.5 Next-Generation Carrier Ethernet & IP/MPLS Network Infrastructure.... 22
Figure 5.6 Data & Optical Network Equipment – Use & Plans ............................... 23
Figure 5.7 Numerous Ethernet Access Options ....................................................... 23
Figure 5.8 Wireline Ethernet Access Equipment – Use & Plans .............................. 24
Figure 5.9 Carrier Ethernet-Related Technology – Use & Plans .............................. 24
Figure 5.10 Allocation of Carrier Ethernet Spending Across Applications............. 25

* All charts and figures in this report are original to Heavy Reading, unless otherwise noted.
