LIST OF FIGURES*

SECTION I

SECTION II

Figure 2.1  Session Management Functions of a Convergence Gateway .................. 10
Figure 2.2  Access SBCs vs. Peering SBCs ................................................................ 13
Figure 2.3  3GPP Architecture With WLAN Support ...................................................... 15
Figure 2.4  Milestone Timeline in Access Gateways & Session Management .......... 15
Figure 2.5  No Two Access Technologies Are Alike ...................................................... 17

SECTION III

Figure 3.1  Session Management as Defined by 3GPP Release 7 ............................ 20
Figure 3.2  The Reach of Session Management .......................................................... 21
Figure 3.3  Convergence Gateway Implementation Scenario .................................... 22

SECTION IV

Figure 4.1  The Competitive Landscape ..................................................................... 31
Figure 4.2  SBCs vs. Security Gateways ................................................................. 31
Figure 4.3  Convergence Gateway Comparison ....................................................... 33

SECTION V

SECTION VI

Figure 6.1  Airvana UAG Functionality .................................................................... 46

SECTION VII
