LIST OF FIGURES*

SECTION I

SECTION II

Figure 2.1 Geographic Region in Which Respondents' Employers Are Headquartered........7
Figure 2.2 Geographic Scope of Respondents' Employers.............................................7
Figure 2.3 Number of Employees in Respondents' Organization.................................8
Figure 2.4 Sectors in Which Respondents' Employers Operate .......................................8
Figure 2.5 Respondents by Job Function ........................................................................9

SECTION III

Figure 3.1 Share of Data Spending Currently Represented by Particular Services............10
Figure 3.2 Ethernet's Current & Projected Share of Data Connectivity Spending ............11
Figure 3.3 MPLS/IP VPN's Current & Projected Share of Data Connectivity Spending ......11
Figure 3.4 Estimated Data Services Spending Growth Rates Over Next 12 Months ..........12

SECTION IV

Figure 4.1 What Makes Ethernet Attractive for Enterprise Users?.................................13
Figure 4.2 Expected Wide-Area Network Traffic Growth Over Next 12 Months ...............14
Figure 4.3 Enterprise Views on the Importance of Ethernet Service Features ...............14
Figure 4.4 What Makes an Ethernet Service Provider Attractive for Enterprise Users? ....15

SECTION V

Figure 5.1 Ethernet Connectivity Service Definition Highlights .....................................16
Figure 5.2 Ethernet Private Line Use & Plans .................................................................17
Figure 5.3 Ethernet Virtual Private Line Use & Plans .....................................................17
Figure 5.4 Ethernet Private LAN Use & Plans ...............................................................17
Figure 5.5 Ethernet Virtual Private LAN Use & Plans ....................................................18
Figure 5.6 Ethernet-Based Applications Use & Plans .....................................................19

SECTION VI

Figure 6.1 Ethernet Connectivity Services Spending by Geographic Reach ....................20
Figure 6.2 Ethernet Connectivity Services Spending by Service Type ............................20
Figure 6.3 Ethernet Connectivity Services Priorities Through 2008 ...............................21

SECTION VII

Figure 7.1 Enterprise Plans for Traffic Management at the Service Demarcation Point ...22
Figure 7.2 How Many QOS Levels Are Enough? (All Respondents) ..............................22
Figure 7.3 How Many QOS Levels Are Enough? (Enterprises With 1,000+ Employees) ...23
Figure 7.4 How Important Are Various QOS Levels in Meeting Enterprise Requirements? 23
