LIST OF FIGURES*

SECTION I
Figure 1.1 Worldwide FTTH Deployment Forecast (2007-2013) ............................................6

SECTION II
Figure 2.1 Major Fiber Access Architectures ...........................................................................9
Figure 2.2 Strengths & Weaknesses of Major Next-Gen Technologies ................................12
Figure 2.3 An Advanced Service Provider View – KT’s PON Roadmap .................................14
Figure 2.4 PON Timeline – A Speculative Roadmap ...............................................................16
Figure 2.5 Selected Vendor Attitudes to Next-Generation Technologies ..............................17
Figure 2.6 Vendors With a Fiber-based Offer in the U.S. Cable Market .................................18
Figure 2.7 Estimated Costs in Different Countries .................................................................20

SECTION III
Figure 3.1 FTTH Maturity Point in Leading Nations ..............................................................22
Figure 3.2 FTTH Growth in Japan .........................................................................................24
Figure 3.3 KT Plans to Increase MDU Bandwidth Using WDM PON .................................27
Figure 3.4 FTTH Growth at Verizon .......................................................................................30

SECTION IV
Figure 4.1 FTTH Households & Penetration in Major Economies (End of 2013) ..................47
Figure 4.2 Connected Households by Region (2007-2013) ..................................................48
Figure 4.3 Connected Households by Technology Type (2007-2013) .................................48
Figure 4.4 Connected Households by Provider Type (2007-2013) .......................................49
Figure 4.5 Connected Households by Household Type (2007-2013) ...................................50

SECTION V
Figure 5.1 Vendor Flagship Products ....................................................................................51
Figure 5.2 Alcatel-Lucent Flagship Product – 7342 FTTU ....................................................53
Figure 5.3 Allied Telesis Flagship Product – iMAP 9700 (MSAP) ..........................................54
Figure 5.4 Alloptic Flagship Product – edge10 .......................................................................56
Figure 5.5 Calix Flagship Product – C7 MSAP .....................................................................57
Figure 5.6 Cisco Flagship Product – Catalyst 4500 E-Series ...............................................59
Figure 5.7 ECI Flagship Product – F152 MSAN .................................................................60
Figure 5.8 Enablence Flagship Product – Trident7 ...............................................................61
Figure 5.9 Ericsson Flagship Product – EDA 1500 ...............................................................63
Figure 5.10 FiberHome Flagship Product – AN 5116-02 .......................................................64
Figure 5.11 Hitachi Flagship Product – AMN1220 .................................................................66
Figure 5.12 Huawei Flagship Product – SmartAX MA5600T ...............................................67
Figure 5.13 Iskratel Flagship Product – SI3000 MSAP ...........................................................68
Figure 5.14 Nortel Flagship Product – EAST 1000 ...............................................................70
Figure 5.15 Motorola Flagship Product – AXS2200 .............................................................71
Figure 5.16 NEC Flagship Product – AM3110 .......................................................................72
Figure 5.17 Occam Flagship Product – BLC6000 MSAP .......................................................74
Figure 5.18 PacketFront Flagship Product – MS8008............................................................75
Figure 5.19 Telco Systems Flagship Product – TSC 24G ........................................................77
Figure 5.20 Tellabs Flagship Product – 1100 MSAP ...............................................................78
Figure 5.21 UTStarcom Flagship Product – BBS 4000 ...........................................................80
Figure 5.22 Zhone Flagship Product – MXK 723 MSAP ........................................................80
Figure 5.23 ZTE Flagship Product – ZXA10 C220 ................................................................82
