LIST OF FIGURES*

SECTION I

SECTION II
Figure 2.1 Global Mobile Broadband Connections by Technology ......................... 9
Figure 2.2 HSPA Mobile Broadband Traffic Trends 2007-2008 .............................. 10

SECTION III
Figure 3.1 Live Packet Backhaul Deployments by Region ................................... 12
Figure 3.2 Cell Sites Served by Packet Backhaul by Region .................................. 13
Figure 3.3 Global Packet Backhaul Deployments by Size .................................... 13
Figure 3.4 Largest Live Packet Backhaul Deployments Currently in Service .......... 14
Figure 3.5 Large Packet Backhaul Deployments Planned for 2009-2010 ................. 15
Figure 3.6 Live Packet Backhaul Deployment by Carrier Type .............................. 16
Figure 3.7 Live Deployments Enabled by Wireline Wholesalers ........................... 16
Figure 3.8 Mobile Technologies Supported in Live Deployments – Multi-Standard . 17

SECTION IV
Figure 4.1 L1 Technologies in Use in Live Deployments ...................................... 19
Figure 4.2 Deployments by Architecture – Pure Packet & Hybrid ......................... 20
Figure 4.3 Deployments by Packet Interface at the Cell Site ................................. 21

SECTION V

SECTION VI
Figure 6.1 Key Packet Backhaul Technologies Plotted Against the "Hype-Cycle"... 28

SECTION VII
Figure 7.1 Packet Base Station Interfaces by Type ............................................. 29
Figure 7.2 The Largest Deployments With 1U Cell Site Gateways ........................ 30
Figure 7.3 The Largest Deployments Supported by MSPPs .................................. 31
Figure 7.4 The Largest Packet Backhaul Deployments Using Packet Microwave .... 32
Figure 7.5 Packet Backhaul Deployments Using Ethernet Over Copper ............... 33
Figure 7.6 Packet Backhaul Deployments Using Ethernet Demarcation Devices .... 34

SECTION VIII
Figure 8.1 Accedian Packet Backhaul Deployments ......................................... 35
Figure 8.2 Actelis Packet Backhaul Deployments ............................................. 35
Figure 8.3 ADVA Packet Backhaul Deployments ............................................. 36
Figure 8.4 Alcatel-Lucent Packet Backhaul Deployments ................................... 37
Figure 8.5 Celtro Packet Backhaul Deployments ............................................. 38
Figure 8.6 Ceragon Packet Backhaul Deployments .......................................... 38
Figure 8.7 Cisco Packet Backhaul Deployments ............................................. 39

* All charts and figures in this report are original to Heavy Reading, unless otherwise noted.
SECTION VIII (CONTINUED)

Figure 8.8    ECI Packet Backhaul Deployments ......................................................... 40
Figure 8.9    Ericsson Packet Backhaul Deployments .................................................... 40
Figure 8.10   Fujitsu Packet Backhaul Deployments ..................................................... 41
Figure 8.11   Harris Stratex Packet Backhaul Deployments ......................................... 42
Figure 8.12   Hatteras Packet Backhaul Deployments .................................................... 42
Figure 8.13   Huawei Packet Backhaul Deployments ..................................................... 43
Figure 8.14   Juniper Packet Backhaul Deployments ..................................................... 44
Figure 8.15   MRV Packet Backhaul Deployments ........................................................ 44
Figure 8.16   Nokia Siemens Packet Backhaul Deployments ...................................... 45
Figure 8.17   Nortel Packet Backhaul Deployments ...................................................... 46
Figure 8.18   RAD Data Packet Backhaul Deployments .............................................. 47
Figure 8.19   Symmetricom Packet Backhaul Deployments ....................................... 47
Figure 8.20   Tellabs Packet Backhaul Deployments .................................................... 48
Figure 8.21   ZTE Packet Backhaul Deployments ......................................................... 48

SECTION IX

Figure 9.1    Live Packet Backhaul Deployments in Europe .................................... 49
Figure 9.2    Live Packet Backhaul Deployments in Asia/Pacific ............................ 50
Figure 9.3    Live Packet Backhaul Deployments in North America ...................... 50
Figure 9.4    Live Packet Backhaul Deployments in Central & Latin America .......... 51

SECTION X

Figure 10.1   Global Forecast for Packet Backhaul in Live Service ......................... 52
