LIST OF FIGURES*

SECTION I

SECTION II

Figure 2.1 Core P-OTS Vendor & Product Comparisons ............................................. 10
Figure 2.2 Worldwide Optical Crossconnect Revenue & Vendor Share ................... 11
Figure 2.3 Operator Infrastructure Pain Points .......................................................... 11
Figure 2.4 Primary Driver for Converged P-OTS Deployments ............................... 12
Figure 2.5 Edge Router Bypass & Optimization Application ................................. 13
Figure 2.6 Enterprise Wavelength Services Applications ...................................... 14

SECTION III

Figure 3.1 OTN Frame Structure .............................................................................. 15
Figure 3.2 OTN Network Layers ............................................................................... 15
Figure 3.3 The OTN Universal Transport Network ................................................... 16
Figure 3.4 Essential MPLS-TP Features ................................................................. 21

SECTION IV

Figure 4.1 Worldwide Core P-OTS Revenue, 2009-2014 ........................................ 24
Figure 4.2 Core DWDM & Optical Switching Revenue, 2007-2014 .......................... 25
Figure 4.3 Core P-OTS & Legacy Revenue, 2009-2014 .......................................... 25
Figure 4.4 Core P-OTS & Legacy Revenue Share, 2009-2014 ................................. 26

SECTION V

Figure 5.1 BT 21CN Preferred Suppliers ................................................................. 27
Figure 5.2 BT 21CN U.K. Network With Converged Core .................................... 28
Figure 5.3 Verizon Long-Haul OTP Target Architecture ....................................... 31
Figure 5.4 Verizon Core Router Bypass Application .............................................. 32

SECTION VI

Figure 6.1 Alcatel-Lucent Converged Backbone Solution .................................. 35
Figure 6.2 Cyan CyMS 3D Multi-Layer View ......................................................... 38
