LIST OF FIGURES*

SECTION I

SECTION II

Figure 2.1: MEF Ethernet Network-to-Network Interconnection .................................................... 10
Figure 2.2: CenturyLink Ethernet Virtual Private Line SLA Example ............................................. 11

SECTION III

Figure 3.1: Ethernet Connectivity Services Definition Highlights ................................................... 13
Figure 3.2: Ethernet Point-to-Point Services .................................................................................. 14
Figure 3.3: Ethernet Point-to-Multipoint Services – Hub & Spoke ................................................. 15
Figure 3.4: Ethernet Point-to-Multipoint Services – TREE ............................................................. 16
Figure 3.5: Ethernet Multipoint-to-Multipoint Services ................................................................. 17
Figure 3.6: Ethernet Multipoint-to-Multipoint Services – Inter-Metro .............................................. 17

SECTION IV

Figure 4.1: Profiled Carriers – Ethernet Connectivity Services Breakdown ................................... 18
Figure 4.2: AboveNet Ethernet Connectivity Service Portfolio ....................................................... 19
Figure 4.3: AboveNet Ethernet Connectivity Services Highlights .................................................. 19
Figure 4.4: AboveNet Ethernet Access & IP VPN Services Highlights ........................................... 20
Figure 4.5: AT&T Ethernet Connectivity Service Portfolio .............................................................. 24
Figure 4.6: AT&T Ethernet Connectivity Services Highlights ......................................................... 25
Figure 4.7: AT&T Ethernet Internet Access & IP VPN Services Highlights .................................. 27
Figure 4.8: AT&T Ethernet Coverage at a Glance ......................................................................... 29
Figure 4.9: Level 3 Ethernet Connectivity Service Portfolio ........................................................... 31
Figure 4.10: Level 3 Ethernet Connectivity Services Highlights .................................................... 31
Figure 4.11: Level 3 Ethernet Internet Access & IP VPN Services Highlights .............................. 32
Figure 4.12: Optimum Lightpath Ethernet Connectivity Service Portfolio .................................... 35
Figure 4.13: Optimum Lightpath Ethernet Connectivity Services Highlights ............................ 36
Figure 4.14: Optimum Lightpath Ethernet Internet Access & IP VPN Services Highlights .......... 37
Figure 4.15: Reliance Globalcom Ethernet Connectivity Service Portfolio .................................. 40
Figure 4.16: Reliance Globalcom Ethernet Connectivity Services Highlights ............................. 40
Figure 4.17: Reliance Globalcom Ethernet Access & IP VPN Services Highlights ...................... 42
Figure 4.18: Verizon Ethernet Connectivity Service Portfolio ........................................................ 46
Figure 4.19: Verizon Ethernet Connectivity Services Highlights .................................................. 46
Figure 4.20: Verizon Ethernet Access & IP VPN Services Highlights ........................................... 48
Figure 4.21: XO Ethernet Connectivity Service Portfolio ............................................................... 51
Figure 4.22: XO Ethernet Connectivity Services Highlights .......................................................... 52
Figure 4.23: XO Ethernet Internet Access & IP VPN Services Highlights ..................................... 53
