LIST OF FIGURES*

SECTION I

SECTION II

Figure 2.1: Global Packet Backhaul Deployments by Size – April 2009 ........................... 8
Figure 2.2: Tactical Upgrade & IP Transformation Paths for Mobile Backhaul ............... 10

SECTION III

Figure 3.1: 3GPP's W-CDMA & LTE Architectures ......................................................... 12

SECTION IV

SECTION V

Figure 5.1: IPsec Options in LTE Backhaul ................................................................. 19
Figure 5.2: IPsec Tunnels at the eNodeB ................................................................. 20
Figure 5.3: Simplified IPsec Deployment Models ......................................................... 22

SECTION VI

Figure 6.1: Frequency Synchronization Solutions in Use With 3G Packet Backhaul ...... 25

SECTION VII

Figure 7.1: Mobile Operator Propensity to Distribute LTE Core Network Intelligence .... 31

SECTION VIII

Figure 8.1: Verizon Wireless’s Backhaul Network Architecture for CDMA & LTE ....... 34

SECTION IX
