LIST OF FIGURES*

SECTION I

Figure 1.1 Global Mobile Broadband Connections by Technology ................................. 4

SECTION II

Figure 2.1 Heavy Reading Wireless Network Segmentation ........................................... 7
Figure 2.2 Mobile Technology Generations & Standards ............................................. 9
Figure 2.3 Global Mobile Data Traffic by Geographic Region ...................................... 10
Figure 2.4 Global Mobile Data Traffic by Connection Speed ...................................... 11
Figure 2.5 Global Internet Traffic by Traffic Type ....................................................... 11
Figure 2.6 Mobile Backhaul Network Provider Segmentation ..................................... 13
Figure 2.7 Mobile Backhaul Operator Constituents .................................................... 14
Figure 2.8 Present Modes of Operation for Mobile Backhaul Over Fiber ....................... 14
Figure 2.9 Future Modes of Operation for Mobile Backhaul Over Fiber ....................... 15
Figure 2.10 Access/Edge P-OTS for Mobile Backhaul ................................................. 18

SECTION III

Figure 3.1 Global Forecast for Ethernet-Served Cell Sites by Technology ................. 24
Figure 3.2 Global P-OTS Revenue for Mobile Backhaul by Region ............................. 25
Figure 3.3 Global P-OTS Revenue Share for Mobile Backhaul by Region ..................... 25
Figure 3.4 Packet-Optical Transport for Mobile Backhaul Segmentation ................. 26
Figure 3.5 Global P-OTS Revenue for Mobile Backhaul by Segment ............................. 26
Figure 3.6 Global P-OTS Revenue Share for Mobile Backhaul by Segment ................. 27
Figure 3.7 Global P-OTS Access Revenue for Mobile Backhaul by Region ................. 27
Figure 3.8 Global P-OTS Aggregation Revenue for Mobile Backhaul by Region ......... 27
Figure 3.9 Global P-OTS Metro Core Revenue for Mobile Backhaul by Region ......... 28

SECTION IV

Figure 4.1 Key Operating Metrics for China Mobile ................................................ 29
Figure 4.2 Zayo Bandwidth National Network ......................................................... 32

SECTION V

Figure 5.1 Alcatel-Lucent 1850 TSS Mobile Backhaul Customers .............................. 35
Figure 5.2 Alcatel-Lucent 1850 TSS Packet-Optical Transport Product Line ................. 35
Figure 5.3 Ciena Next-Generation Product Portfolio ................................................ 37
Figure 5.4 ECI Telecom Announced Mobile Backhaul Customers .............................. 38
Figure 5.5 ECI's Mobile Backhaul Product Line ....................................................... 39
Figure 5.6 Ericsson OMS 1410 Mobile Backhaul Customers ..................................... 40
Figure 5.7 Fujitsu Flashwave 9500 EoX Gateway Mobile Backhaul Application ......... 41
Figure 5.8 Tellabs Mobile Backhaul Product Portfolio .............................................. 45
Figure 5.9 Transmode Mobile Backhaul Network ..................................................... 47
