LIST OF FIGURES*

SECTION II

Figure 2.1: Global Mobile Services Revenue Mix (2009-2014) ................................................. 9
Figure 2.2: Western European Mobile Services Revenue Mix (2009-2014) ....................... 9
Figure 2.3: Vodafone’s Western European Service Revenue ................................................. 10
Figure 2.4: Percentage Change in Vodafone’s Western European Service Revenue .... 11
Figure 2.5: Fixed-Line Voice Service Revenues in the UK (Excluding Line Rental) .......... 11
Figure 2.6: Attitudes About Voice Over LTE & Over-the-Top VoIP ................................. 12

SECTION III

Figure 3.1: RCS for 3G Handsets .................................................................................. 15
Figure 3.2: Mapping RCS to the Wider Ecosystem ......................................................... 16
Figure 3.3: RCS & Social Networking ............................................................................ 17
Figure 3.4: Evolution of Service Sophistication ......................................................... 18

SECTION IV

Figure 4.1: EPS Bearer Model Supports VoIP ............................................................... 19
Figure 4.2: Importance of LTE-Specified QoS Mechanisms ........................................ 20
Figure 4.3: Summary of Interim Options for Voice Over LTE ......................................... 21
Figure 4.4: Migration Options for LTE Voice ................................................................ 22

SECTION V

Figure 5.1: Compatibility Between VoLTE & "Full" IMS ................................................. 25
Figure 5.2: Fast Track Voice Over LTE ......................................................................... 27
Figure 5.3: Transfer From LTE to 2G/3G Using SRVCC .................................................. 29
Figure 5.4: Call Anchoring in IMS Network for GSM ..................................................... 30

SECTION VI

Figure 6.1: CS Fallback Mechanism .............................................................................. 33
Figure 6.2: Call Setup Delay With CS Fallback .............................................................. 34
Figure 6.3: VoLGA Network Architecture ....................................................................... 35

SECTION VII

Figure 7.1: Tier 1 Equipment Suppliers Positioning for Voice Over LTE ......................... 36
Figure 7.2: Vendor Positioning on Voice Over LTE ......................................................... 40
