LIST OF FIGURES*

SECTION I

Figure 1.1: Respondents by Service Provider Type ......................................................... 6
Figure 1.2: Respondents by Job Function ........................................................................ 7
Figure 1.3: Respondent Breakout by Geographic Location .............................................. 7
Figure 1.4: Respondent Breakout by Company Annual Revenue ..................................... 7

SECTION II

Figure 2.1: Real-World Examples of Mobile Network Outages & Degradations .......... 8
Figure 2.2: Frequency of Mobile Network Outages & Service Degradations ................. 9
Figure 2.3: Which Types of Disruption Most Often Affect Mobile Subscribers? .......... 11
Figure 2.4: Incidents of Total vs. Partial Outages & Degradations .............................. 11
Figure 2.5: Current vs. Historical Trends in Outages & Degradations – All Operators ... 12
Figure 2.6: Trends in Outages & Degradations – Developing vs. Developed Markets ... 13
Figure 2.7: The Duration of Mobile Network Outages & Service Degradations ........... 13
Figure 2.8: One- to Four-Hour Outages – Developed & Developing Market Operators 14
Figure 2.9: Respondents Whose Companies Have Live LTE Networks .................... 14
Figure 2.10: The Most Common Causes of Network Outages ...................................... 15
Figure 2.11: The Most Common Causes of Service Degradations ............................... 17
Figure 2.12: The Causes of the Most Severe Outages & Degradations ...................... 18
Figure 2.13: Network Domains Where Outages & Degradations Occur Most Often .... 19
Figure 2.14: Operators’ Ability to Understand the Causes of Outage & Degradations ... 20
Figure 2.15: How Do Operators Become Aware of Outages & Degradations? .......... 21
Figure 2.16: How Closely Network KPIs Correlate With the Actual User Experience ... 22
Figure 2.17: The Costs Associated With Specific Causes ........................................... 26
Figure 2.18: The Extent to Which Outages & Degradations Impact Subscriber Churn ... 27
Figure 2.19: The Largest Costs From Outages & Degradations – Developed Markets ... 27
Figure 2.20: The Largest Costs From Outages & Degradations – Developing Markets 28
Figure 2.21: The Impact of Different Factors on Subscriber Churn ............................. 29
Figure 2.22: Costs as a Percentage of Total Revenue ................................................... 30
Figure 2.23: Direct Financial Compensation Rates (Where Operators Pay It) ............. 30
