LIST OF FIGURES*

SECTION I

Figure 1.1: Use of Microwave Backhaul Technology ................................................................. 7
Figure 1.2: Respondents by Geographic Location ........................................................................ 8
Figure 1.3: Respondents by Job Function .................................................................................. 8
Figure 1.4: Respondents by Company Annual Revenue .............................................................. 9

SECTION II

Figure 2.1: The Percentage of Cell Sites Currently Served by Microwave Backhaul .............. 10
Figure 2.2: Number of Networking Devices Typically Found at Cell Sites Today .................. 10
Figure 2.3: Sites With a Router Directly Connected to the Microwave IDU ............................ 12

SECTION III

Figure 3.1: Sites With a Router Directly Connected to the Microwave IDU in One Year ....... 13
Figure 3.2: Microwave Bandwidth in the Access Layer of the Backhaul in One Year ............. 14
Figure 3.3: Microwave Bandwidth in the Aggregation Layer of the Backhaul in One Year .... 14
Figure 3.4: The Biggest Challenge With the Future Evolution of Microwave Backhaul .......... 15
Figure 3.5: The Single Biggest Contribution to TCO Reduction in Microwave Backhaul ....... 17
Figure 3.6: The Value of Reducing Rack Space ...................................................................... 18

SECTION IV

Figure 4.1: The Importance of Different Packet Protocols for Microwave Backhaul ............. 19
Figure 4.2: The Importance of "Microwave Awareness" in Backhaul Routers ....................... 20
Figure 4.3: The Need for L3 Protocols in the Access Part of the Backhaul by 2016 .............. 21
Figure 4.4: The Need for L3 Protocols in the Aggregation Part of the Backhaul by 2016 ....... 23

SECTION V

Figure 5.1: The Case for a Converged Microwave Router ....................................................... 24
Figure 5.2: The Best Arguments Against a Converged Microwave Router ............................ 25
Figure 5.3: How Likely Is It That CMR Products Will Be Deployed in the Next Three Years? 26
Figure 5.4: Preferences for Single- & Dual-Sourcing of Routers in the Backhaul ................... 27
Figure 5.5: The Propensity to Buy Router Solutions From a Microwave Vendor ................. 28

* All charts and figures in this report are original to Heavy Reading.
